Contents

Photodetectors and Compatible Low-Noise Amplifiers for Long-Wavelength Light Wave Systems
Joe C. Campbell 1

Reliability of 1.3-μm InGaAsP/InP Laser Diodes
D. K. Paul and K. H. Greene 23

A Passive Three-Branch Optical Power Divider in $LiNbO_3$
M. Belanger and G. L. Yip 65

Coating Optical Fibers with Dual Dies Separated by a Pressurized Chamber
C. J. Aloisio, T. A. Lenahan, and C. R. Taylor 81

The All-Optical Telephone Subscriber System
N. W. Feldman 99

Evaluation of Optical Loss Minima in Thallium Halide Crystals
E. M. Dianov, I. S. Lisitsky, V. G. Plotnichenko, V. B. Sulimov, V. K. Sysoev, and L. N. Butvina 125

Fabrication Techniques for High-Quality Optical Fibers
Arnab Sarkar 135

A Method for Reducing Optical Fiber Diameter Fluctuations
Du Bai-lin, Liangbiao Yang, and Chen Hai-hua 151

Optical Interference and Pulse Propagation in Multimode Fibers
B. E. A. Saleh and R. M. Abdula 161

Performance Trade-off of Coaxial and Fiberoptic Cables
H. Hodara 203

Fiber Optic Networks: New Opportunities for Rights-of-Way Owners
Andrew D. Lipman 239

Practical Considerations in Determining the Installed Cost of LAN Optical Fiber Cables
John L. Ellis 247

A Data Broadband Fiber for Local Access Systems
Kevin W. Murphy 259

Integrated Optical Fiber Data Link Transmitter/Receiver for Local Area Network Application
Yoshihiro Uda, Keiji Suzuki, and Keizo Kashiwagi 273

Design and Fabrication of AlGaAs/GaAs Phase Couplers for Optical Integrated-Circuit Applications
G. Allen Vawter and James L. Merz 291

Issues in Single-Mode Fiber Standardization
Felix P. Kapron 307

Applications of Wavelength-Division Multiplexing and Time-Division Multiplexing to Aircraft Data Links
Christopher E. Polczynski and Garry Duck 319

A Competitive Assessment of the U.S. Fiber Optics Industry
U.S. Department of Commerce 329
